Good Day...

We are writing to request a donation to our silent auction, proceeds to benefit children and adults in Ventura County in need of eye exams and treatments, regardless of their ability to pay. Ultimately, this serves the Lions' mission of vision and the prevention of blindness.

Ventura County Lions Clubs have joined together to support diabetes and vision care with the Ventura County Health Care Agency, so that everyone in Ventura County can have access to care.

Recently, this support has been the creation of a Pediatric Vision Clinic with the purchase of equipment which enables remote access to specialty eye doctors at Children's Hospital Los Angeles for acute patients. This provides better patient outcomes for much needed regular eye exams and increases the number of patients screened locally with this telemedicine/telehealth component.

The next phase is to create a Diabetes/Adult Vision Clinic which would include a comprehensive education center, plus wound care and foot care with the same tenets as above.

We hope you will help support Lions with this local diabetes/vision project by donating to our silent auction at the upcoming Centennial Celebration and District-wide Installation of Club Officers dinner on June 10th.

Lions Clubs International has been providing service for 100 years. We are celebrating this milestone with a unique event working in collaboration with Health Care Foundation for Ventura County, which is a non-profit organization dedicated to strengthening the capacity of the Ventura County Health Care Agency to provide high quality care for all. Proceeds will benefit the Diabetes/Adult Vision Center.

Thank you for your support.
